

No.461/2020

SANITARY CERTIFICATE

As per the application submitted by the Principal, Lake Mount Public School, Kattikkunnu, Chempu, Kottayam dated 18/02/2019, I have inspected the school on 05.10.2020 bearing building No.1 /183 of Chempu Gramapanchayath.

The sanitary arrangements such as water supply, toilets and waste disposal facilities provided are found satisfactory at the time of inspection.

This certificate is issued subject to the following conditions which are to be sustained.

- 1) Daily cleaning of class rooms, urinals and toilets should be ensured and school premises should be kept clean and tidy.
- 2) Proper arrangements should be made for reception, collection and sanitary management of wastes from the unit.
- 3) No wastes should be burned in the premises of the school.
- 4) First aid kit with sufficient medicines should be kept at office.
- 5) Students and staff should be strictly instructed to wash hands with soap and water especially after using toilets.
- 6) Safe and dependable source of drinking water should be ensured. Bacteriological examination of water sample from source should be done once in six months and chemical analysis once in year from a Government or Govt. recognized analytical laboratory, and certificates should be kept at office.
- 7) Fire fighting equipments should be installed.
- 8) Smoking should be prohibited in the school and its premises and notice board for the same should be exhibited as per COTPA 2003.
- 9) "Break The Chain" campaign convenience to fend off coronavirus to be ensured.

The school authority should follow the timely instructions of local health authority regarding sanitary facilities.

*This certificate is issued for the purpose of getting recognition from the authority concerned.*
